August 15, 2025

Dear Customer,

On August 14, 2025 the Board of Directors of North Collin Special Utility District (NCSUD) took affirmative action on changes to our Rate Order to increase the water rates. The last such increase was implemented in May 2024. North Texas Municipal Water District (NTMWD), from whom NCSUD purchases water, has increased their rates each year and are scheduled to do so annually in the future in addition to rising costs of our ground water resources, normal operating expenses and maintenance of our infrastructure to ensure the delivery of adequate service to our customers. **The water bills processed on or after October 1, 2025 will reflect the increase in base rate and gallonage charges.**

Below is a chart of the new rates.
